(54) Title: INTRACELLULAR FORMATION OF PEPTIDE CONJUGATES

(57) Abstract: The invention includes methods and compositions for forming peptide conjugates intracellularly having a covalent linkage between a modifying group and a glycosylated or non-glycosylated peptide. The modifying group is conjugated to the peptide via a glycosyl linking group interposed between and covalently linked to both the peptide and the modifying group.

WO 2004/091499 A2

Declaration under Rule 4.17:

- *of inventorship (Rule 4.17(iv)) for US only*

Published:

- *without international search report and to be republished upon receipt of that report*
